Differences between landing page vs client page

Things to check:

1. Tooltip + Bangla
2. Global Search Arrow Navigation
3. Heatmap Double Click and Right Click events, Instrument code full, hover tooltip.
4. Central Data Polling for Market page
5. No Index Chip on client page yet
6. Central Data Polling for Ticker and Index Chip
7. Top ten shares Animation
8. Sector List on market overview design changes
9. Index Graph variable time intervals
10. Custom Light mode FINTRA Themed Advanced Chart.
11. Financials tab - million unit not working
12. Dividend history tab - graph size change.
13. Market Bulletin = “Market Research?”
14. Market bulletin page - Filter options License?
15. “Market open” / “Market Close” not connected to api.
16. Daily Market Brief - “View Brief” connects to nowhere.
17. Instant Setup & Access - “Setup My Account” connects to oms base page.
